

WINTER 2017

Winter break FUN for kids at the University of Nevada, Reno!

## Weeklong Camps • Jan. 3-6, 2017

*Kids in grades 4-8 can choose from five themed, weeklong camps, all designed to incorporate the academic **STEAM** components — Science, Technology, Engineering, Arts and Math — with a healthy dose of FUN!*

### NEW All-Day Camps!

**Daily 9 a.m.-3:30 p.m.**

Before and after care is offered at no additional cost.

Campers should be dropped off at Fleischmann Planetarium between 7:45 a.m. and no later than 8:45 a.m. Campers must be picked up between 3:45 p.m. and no later than 5:30 p.m.

Drop off and pick up your camper(s) at:  
Fleischmann Planetarium on the University campus  
1664 N. Virginia St., north of Lawlor Events Center.

### Cost is \$220 per child.

Complete information for camp registration, including a schedule and mandatory health and waiver forms, are available at [www.KIDSU.unr.edu](http://www.KIDSU.unr.edu). All campers should bring a morning snack, lunch and afternoon snack each day. Campers can purchase pizza lunch on Friday for \$5.

**Register today!**

### Chain Reactions (For grades 4-6)

The famous cartoonist/engineer Rube Goldberg used to design numerous humorous machines that did wacky things. You'll discover how to engineer your machines that perform comical sequences of complex actions and reactions that can crack eggs, turn out lights, ring bells — and amaze your friends.

### It's All Greek to Me! (For grades 4-6)

Explore the magic of ancient Greece, where you will learn about gods, goddesses and mythical monsters. Build edible ruins, concoct mythical creatures and compete in your own Olympic Games in an outfit of your creation.

### Ghost Ships (For grades 4-6)

For budding naval architects, engineers, mariners and anyone interested in true tales of the sea, come explore the maritime stories of real ships that met their fates in mysterious ways. Along the way, you'll learn fun facts about historic ships, ship building and design. You'll also build and test-sail your model vessel.

### Like a Pro: Web Design and Computer Logic (For grades 5-8)

Ever wanted to design/build your own website? We'll use a simple web creator to conceptualize and design websites like the professionals! You'll also learn the basics of how the Internet works, how others see your website, and how video games and computer logic relate. We'll also do a team computer build from scratch.

### Paint It! (For grades 5-8)

Learning about how to use a pattern, mix colors and use correct brushes to create different effects, as you express your inner artist. Create a different masterpiece each day. Paint beautiful horses, spooky black cats, an inquisitive owl and a spring bunny. By the end of the week, you'll have four art pieces to take home.

**Extended Studies**  
University of Nevada, Reno
